ABSTRACT

This selected bibliography is intended to serve as a supplement to a previous bibliography listing publications suggested for inclusion in a library on educational planning. The additional citations presented in this volume were suggested by readers of the earlier bibliography. Only publications currently available for acquisition have been included. All entries are listed alphabetically by author's name. (JG)

****
* Documents acquired by ERIC include many informal unpublished *
* materials not available from other sources. ERIC makes every effort *
* to obtain the best copy available. nevertheless, items of marginal *
* reproducibility are often encountered and this affects the quality *
* of the microfiche and hardcopy reproductions ERIC makes available *
* via the ERIC Document Reproduction Service (EDRS). EDRS is not *
* responsible for the quality of the original document. Reproductions *
* supplied by EDRS are the best that can be made from the original. *

FOREWORD

Educational planning has been defined in its broadest terms by Project Simu School: Santa Clara County Component during its pursuit of techniques for providing information to decision makers in educational systems. Emphasis on community analysis and on understanding the client has led the Simu School staff to consult diverse references on societal and educational change.

Some references desired by the staff have been difficult to secure, hence the decision to develop a reference library for use by planners and other interested personnel. This effort generated an extensive list of books and other materials of interest which were assigned priorities for inclusion in the professional library of the Office of the County Superintendent of Schools of Santa Clara County. The lists of desired materials have been assembled into a bibliography on educational planning presented herein as suggested references for use in broadening one's understanding of the educational process.

Special recognition is given to Mrs. Susan Choi of the Library Information Service of the Office of the County Superintendent of Schools for her dedicated work in assembling these materials and preparing the criteria for selection of references. Richard Cornish, editor, and other staff of the Center for Educational Planning are recognized for their contributions of titles and for their consideration and review of the resulting lists.

We hope this reference work will be of value to all who use it in their search for information necessary for good educational planning.

Lester W. Hunt, Director
Project Simu School: Santa Clara County Component

The project presented or reported herein was performed pursuant to a grant from the U.S. Office of Education, Department of Health, Education and Welfare. However, the opinions expressed herein do not necessarily reflect the position or policy of the U.S. Office of Education, and no official endorsement by the U.S. Office of Education should be inferred.

INTRODUCTION

This selected bibliography is a supplement to the earlier edition and contains citations for books to be included in a library for educational planning. Only those items which are currently available for acquisition are included.

Additional citations were suggested by readers of the earlier bibliography. With the accumulation of numerous titles, it appeared worthwhile to update the list and to publish this supplement to the original document. The citations in this bibliography were obtained by reviewing other bibliographies, the collections of other libraries and citations in appropriate books and periodicals. Suggestions were also solicited from persons in the field of educational planning. Whenever possible, the actual work was examined, but in many cases works were chosen on the basis of reviews and annotations.

This bibliography is arranged alphabetically by author. Citations are numbered consecutively throughout the bibliography.

1. American Alliance for Health, Physical Education and Recreation, Dressing Rooms and Related Service Facilities for Physical Education, Athletics and Recreation. National Education Association, Washington, D.C., 1972.
